Rooms full of life.

A MEISTER master class in nature.

Nature is a master of form and colour. Our claim for premium laminate flooring from MEISTER is to get as close to this as possible. To do this we take the utmost care when developing our decors. We are only satisfied once you can no longer see the difference between the surfaces and real wood, stone or textiles at first glance. Structures specially coordinated to the individual surfaces ensure the greatest possible degree of natural reproduction. In conjunction with selected raw materials and excellent workmanship, first-class brand products result that you can enjoy for a long time.

Be inspired – for rooms full of life.

■ MEDIUM

■ DARK

■ LIGHT

Which colour scheme gets your heart racing?

Sometimes it's a clear vision, sometimes just a vague idea but it is always a desire for a cosy home that guides you when choosing your floor. Many totally different factors influence your choice. Often the colour is the crucial concept. It harmoniously complements the furnishing or creates dramatic contrasts. When you select your floor you significantly influence the overall effect of a room. We have therefore broken down our laminate flooring into three colour schemes for guidance and inspiration.

1

LIGHT

Flooded with light

Laminate flooring in the light colour scheme supports many furnishing styles when used with both complementary and contrasting colours creating pleasant tranquillity. From lively to harmonious, you decide which floor should go with your furnishings.

2

MEDIUM

Balanced

These floors are masters of perfect balancing acts and change their expression according to their environment. They ground the flighty and give wings to the down-to-earth. You decide how you use laminate flooring from the medium colour scheme creatively in your home.

3

DARK

Deep

Laminate flooring creates an irresistible ambience in rich dark colours. The decors from this colour scheme elegantly complement any furnishing, from the tasteful to the modern. You decide whether the dark flooring should act as a striking exclamation mark or harmoniously complement your home.

Heaven
on a light floor.

Beautifully **light!**

Light looks are totally trendy – MEISTER presents a large number of wonderful laminate flooring in this colour scheme. With the experience of three generations, a passion for craftsmanship and a knack for innovation, floors result that impress with their inner and outer values. On the next few pages we have captured some beautiful examples of light surfaces, which are representative of the whole colour scheme.

LS 300 | Vanilla oak 6265 | Wood effect

A tough performer.

Premium laminate flooring from MEISTER can really take a lot: those awkward years lived out in the children's room as well as a change of furnishing style and an urge to redesign walls. Just as masterful – PVC-free, made without any harmful plasticisers and solvents and its easiness to clean make this laminate flooring particularly suitable for people with allergies.

Variety is our programme.

Wood? Textile? Do your eyes deceive you? A little bit, as this is also laminate flooring. Besides authentic wood effects, MEISTER also offers beautiful stone and textile imitations. The plank formats are coordinated to the respective surfaces and range from classic tile format with integrated dark contrasting joint to various 3-strip versions to elegant 1-strip planks.

LD 300|25 Melango | Pure ash 6286 | Wood effect

Wow effects included.

MEISTER maximises the format with the LD 400 château plank in its unique length of 2600mm. There is no repeated decor even with this generous dimension.

Regardless of format, our laminate flooring stands out due to its elegant looks, its character is accentuated by effective surface structures. Give your home a special vibrancy with MEISTER laminate flooring.

Masters of balancing acts
from the centre.

Right in the middle and **never off the mark.**

If light is too light and dark is too dark then the golden mean of all possible colours is alluring. Just how you like it: floors from the medium colour scheme complement and support your interior design style. Like all MEISTER laminate flooring, our medium scheme is also first-class and guarantees you a resistant floor that remains beautiful over many years.

The most beautiful spot for nature lovers? Indoors!

Bring more life into your rooms! The impressive oak laminate flooring modelled totally on nature with distinctive grain, clear knots, visible pores and contrasting cracks provides an attractive basis for a homely ambience with its rich play on colours. Bring even more of the outdoors inside using furnishing and accessories. And those who provide enough humidity, especially during the heating period, create a room climate healthy for living that both people and flooring benefit from equally.

LD 300|20 Melango | Light vintage pine 6283 | Wood effect

Once a plank's length easily cracks the two metre mark interesting design possibilities open up for rooms and room transitions. Particularly striking: the extra long planks laid across the room without any end joints, for a spacious look.

Let's put our cards on the table!
Can you see where the joints run
on this laminate flooring? No?
We can't either. Flooring can be
installed as smoothly as this.

LC 100 | Cognac cracked oak 6281 | Wood effect

Who has hooked
the most
beautiful floor?

Beauty through and through.

The beauty of MEISTER premium laminate flooring focuses on quality layer by layer. From a first-class base material, to intelligent product structure that ensures stability and easy installation, to the scratch-resistant *Diamond Pro* surface: it's not just the outer values that are spot on here but also the inner values.

**MEISTER**

The really confident know how to stand back. Laid harmoniously, with a wonderfully accomplished appearance, the laminate flooring classic LC 100 takes on the right role for any style.

LC 100 | Toffee oak 6266 | Wood effect

Only the floor **whispers here.**

This floor can take on anything: high heels, court shoes and peep toes, so that the lady of the house does not have to tiptoe through rooms when she has her favourite shoes on. Anyone who values peace and quiet should choose a floor with integrated MEISTER sound-absorbing cushion.

**MEISTER**

Temptation is
dark.

Really well done.

Dark floors are creative exclamation marks. The magical eye-catchers whose play on colours reminds you of espresso, mocha and cappuccino lend any room a really special atmosphere. Like all MEISTER laminate floors they impress with expressive decors and authentic surface structures.

Be it a classic 3-strip plank or large-format château plank, MEISTER laminate flooring always cuts a fine figure. The LD 400 collection's planks are spacious and elegant at 2600 x 238 millimetres and set new standards. With appropriate pre-sorting of the planks, even the trained eye finds it difficult to see any repeated decor over the installed area. You simply cannot get enough of it.

Skirting board profile 9 PK
Stainless steel 063 (decorative film)

A feast for the eyes.

Gracefulness in the **grey zone.**

Distinctive shades of grey go well with the many brown tones in the dark colour scheme. Combined with timeless furnishing and light colours, such as white and silver, oak decor develops a surprisingly modern character in this colour constellation.

Living with contrasts.

The floor provides a dark contrast to the light walls. Rustic floor meets modern kitchen. Change of room. The natural shade of the floor creates an appealing contrast to the colourful interior design. Between the decoration, wall design and choice of floor an exciting canvas opens for effective creations using contrasts. Contrasts are something for connoisseurs. And masters.

Just **relax.**

Birthdays, Christmases, promotions, christenings – may you never run out of occasions for magical celebrations at home. Laminate flooring from MEISTER gives you the security of having a really tough and easy to clean floor under your feet, regardless of whether you decide on a wood, textile or stone decor.

Award-winning – laminate flooring from MEISTER.

MEISTER warranty

We are so convinced of the quality of our laminate flooring that we give you a warranty of up to 25 years on it, depending on the collection. You receive a floor from MEISTER, which will even impress with its valuable look, high resistance and easiness to clean in many years time.

Warranty according to the MeisterWerke warranty conditions at www.meister.com

The Blue Angel

The result of our responsible choice of materials and modern production processes is that all MEISTER floors carry the Blue Angel – the world's first and most well-known award for environmentally friendly products and services. This means you can be sure you are choosing a low-emissions, ecological floor.

Institute Construction and Environment

Together with the Association of European Producers of Laminate Flooring (EPLF), MeisterWerke Schulte GmbH supports sustainable building using environmental product declarations from the Institut Bauen und Umwelt e.V. (Institute Construction and Environment (IBU) e.V.).

Declaration number: EPD-MWS-2011111-D

General building supervision permission

granted by the German Institute for Building Engineering (DIBt)

CE mark

All MEISTER laminate flooring complies with all European health and safety regulations.

EPLF - Association of European Producers of Laminate Flooring

The MeisterWerke Schulte GmbH is a member of the Association of European Producers of Laminate Flooring and the slogan of the EPLF logo puts it in a nutshell: As European brand-name manufacturers we are well-known in the world for our laminate flooring of certified quality, technological sophistication, with excellent usage properties and a first class eco-balance, convincing in looks and surface feel – additionally with ever new, creative and decorative ideas.

MADE IN GERMANY

We are firmly rooted in our location and see it as much more than just the name of where we come from. For us, "Made in Germany" also means top quality standards. It is our daily challenge to meet these.

Welcome to MeisterWerke.

We have been passionately developing and making products for rooms full of life for many years. At our company headquarters in Rütten-Meiste, in the beautiful region of Sauerland, it is our daily challenge to perfect these and therefore ensure the greatest benefit for our customers.

Our love of innovation is evident in everything: in our huge range, in our company and in the way we work together. Always collaboratively and fairly but also purposefully and reliably. Our company motto is: a MeisterWerke masterpiece every day!

As a family-run company we also think about future generations. That's why respect for nature and natural resources is a matter of course for us. We place great importance on environmentally sound origin and short transport routes when choosing our materials. Independent test institutes verify that the materials used are harmless. Resulting in products that combine top quality, maximum comfort and a great feeling year after year. For your rooms full of life.

MEISTER

Innovative products and system solutions are always the result of teamwork at MeisterWerke.

The careful selection of materials and decor guarantees the best result.

Our products undergo extensive quality tests on their way to becoming the perfect interior design object.

Link to MeisterWerke:
www.meisterwerke.com

Thorough intelligent quality through and through.

Two things give MEISTER premium laminate flooring its amazingly long life: the high quality, carefully selected materials and the intelligent multi-layer structure. Together with the dimensionally stable HDF middle layer used by us, this guarantees you a resistant floor that remains beautiful over many years.

Mastercllic Plus

The unique system for fast laying and secure connection. The combination of the patented Mastercllic Plus system at the short-end side with the tried and tested longitudinal Uniclic connection provides great ease of installation.

- 1 | The flooring is lowered right next to the neighbouring plank.

This is what laminate flooring is like nowadays: **convenient laying, intelligent structure, perfect formats.**

MEISTER laminate flooring not only plays its most beautiful assets in material and appearance but the incredibly easy installation, large selection of formats and sophisticated product structure also impress.

2 | After lowering, the flooring is not yet locked at the ends.

3 | The tongue is only activated when the next row is laid.

4 | This results in a secure connection.

Product structure

Each layer of the MEISTER laminate floor takes on specific tasks. This multi-layer structure's sophisticated interplay is responsible for our planks' inner and outer values. Many laminate floors from MEISTER are also available with an integrated sound-absorbing cushion. All flooring is suitable for installation on controlled hot-water underfloor heating.

*The use of loose insulating underlay is not required when installing MEISTER laminate flooring with integrated sound absorption.

Plank formats

The plank formats range from 63 centimetres with the LB 250 collection to the impressive 2.6 metre long LD 400 château plank. Added to this, the range offers planks in widths from 140 to 325mm.

Three different strip looks are available with 1-strip, 2-strip and 3-strip.

Link to Installation instructions:
[www.meister.com/en/service/service-center/
installation-and-care-instructions.html](http://www.meister.com/en/service/service-center/installation-and-care-instructions.html)

Outward appearances **with depth.**

At MEISTER we are only satisfied once the combination of decor and surface structure imitate the natural ideal as perfectly as possible. At that point, a laminate floor makes the leap into the MEISTER premium collection.

Special pore effect (PS)

Embossed surfaces give MEISTER laminate floors even more authenticity—especially with the special pore effect printing. As with this the pores, filled knots and cracks are individually coordinated to the decor pattern underneath. Different depths and degrees of gloss determine the variety of the special pore structures and give this laminate floor a really authentic appearance.

Raw wood pore structure (RP)

An elegant surface structure that imitates the natural appearance of untreated or naturally oiled real woods. With this technology the finest planing tool marks visually and tangibly emphasise the look of freshly sanded wood.

Wood finish matt structure (WM)

A deeply embossed relief emphasises the grain run of the reproduced wood fibres and conveys an impression of a brushed wood surface. The matt appearance visibly and tangibly produces the natural impression of untreated or naturally oiled real wood.

Elegant pore structure (EP)

This high quality structure is based on the principle of the special pore effect printing. The embossed pores run parallel to the wood fibres' decor pattern underneath. In combination with the matt surface the silk matt shimmering pores produce an elegant and natural overall look.

Matt pore structure (MP)

Matt surfaces with a fine even structure lend select wood effects an elegant and sophisticated character.

Saw-cut structure (S)

With laminate flooring in saw-cut look saw cuts running across the grain are recreated. They are clearly visible and tangible and extra emphasis is added visually by the matt gloss surface finish.

Matt-gloss look (MG)

Captivatingly beautiful: a silky shimmer combined with subtle surface structure enhances the effect of plain colours and accentuates old wood, metal and textile looks.

Wood finish structure (WF)

A deeply embossed relief along the grain run of the reproduced wood fibres conveys the impression of a brushed wood surface. The result: authenticity that can be seen and felt.

Pore structure (P)

Subtle but effective: the fine pore structure makes laminate flooring look alive and authentic. Individual wood grains look far more realistic due to this.

Stone pore structure (SP)

A visible and tangible stone structure is embossed into the surface to achieve this very special look. It is almost impossible for the naked eye to tell the difference between real stone floors.

For the perfect finish – details that simply match.

1

Universal profiles

The professional and proven installation solution for transitions, ends and expansion joints.

2

Universal stair profiles

Stairs with MEISTER floor elements can be easily covered with matching profiles.

3

Skirting boards

Three selected profiles to match all the decor/wood shades in the parquet, cork and laminate flooring range provide the perfect finish.

4

Skirting boards

These modern square-shaped skirting boards are available in many surfaces. Skirting boards coated in a white film which can be painted by the customer in any colour you like.

5

Hamburg skirting boards (not allocated)

The elegant classic among skirting boards can be combined with any floor.

6

Under lay material (not allocated)

High-performance range of insulating underlay for effective sound absorption in the room and the reduction of footfall transmitted to rooms below.

7

Ceiling edging

Three different ceiling edging profiles guarantee clean edging for walls and ceilings.

Link to Mouldings Range:
www.meister.com/en/accessories/flooring-accessories/mouldings.html

A perfect living atmosphere results when all the elements in a room are perfectly coordinated to one another. These include, for example, mouldings that match the floor or panels for attractive joints or special profiles for successful room transitions. Lights can also contribute a great deal to the room atmosphere with their individual light effects. We also offer you suitable care products so that you can enjoy your floor for a long time after installation.

15

Care products (not allocated)

The range of care products are specifically for cleaning MEISTER floors.

14

Attachment lights

The lights are versatile in application and offer the option of choosing between warm white or bright clear light.

13

Recessed lights

The modern lighting range with its LED; low voltage and high voltage lights offers plenty of creative possibilities to create effective room and accent lighting.

12

Shelving rails

If the SP 400 system panel elements are assembled with a live aluminium rail, they can be fitted with decorative lights, e.g. glass floor lights.

11

Glass floor lights

Decorative and atmospheric accent lighting can be fitted to the SP 400 system panel shelf inserts using glass floor lights.

8

Corner mouldings

Perfectly coordinated special mouldings, e.g. large corner mouldings for many corners, angles and edges.

9

LED recessed lights

Our recessed lights, such as FLAT Quadro, are ideal as orientation lighting and impress with their compact dimensions.

10

LED panel lights

To match wall and ceiling installations and ideal for indirect lighting or creating accent lighting.

Technology for a long life

MEISTER premium laminate flooring stays beautiful for longer. Two reasons for this are the *Diamond Pro* surface for high scratch-resistance and the *AquaSafe* system for maximum reduction of the laminate floor's swelling ability. Integrated sound absorption adds yet another pleasant quiet feature to MEISTER-laminate flooring's many other excellent properties.

Noise reducing

The integrated sound absorption in the Silence collections (S) is achieved using a heavy, elastic sound-absorbing cushion made from high-quality PUR mineral blend. It optimally reduces the noise levels and is also able to balance out unevenness in the floors. It creates a firm and flat contact with the subfloor and also counteracts the development of noise.

Diamond Pro®

Newly developed test methods impressively prove that the new *Diamond Pro*® surface even increases our laminate flooring's resistance to micro-scratches and abrasion and provides additional protection against wear.

AquaSafe system

The special impregnation, AquaSafe anti-swelling HDF base board and lasting, secure joint that results from the profile's specially developed and patented geometry, are the compelling advantages of the AquaSafe system. As this is how it effectively prevents surfaces, floors and edges from swelling in the event of contact with water.

This overview helps you to find the floor that is right for your requirements and wishes more quickly. Whether it be very stable, special sound absorption, extra easy to install or convincingly ecological, all the important attributes are listed here for each collection.

Noise reducing

with integrated sound-absorbing cushion

Resistant to humidity

thanks to the AquaSafe system

Edge design

With some collections the edges of planks that lie next to each other merge together into a V-bevel. This emphasises the character of the planks or tiles over the installed area and makes the overall look really authentic.

Wear class 23

The ideal floor for all living areas with heavy wear such as kitchens, hallways, home offices etc.

Wear class 31

The ideal floor for commercial areas with normal wear such as hotel rooms, small offices, conference rooms etc.

Wear class 32

The ideal floor for commercial areas with normal wear such as offices, waiting rooms, boutiques etc.

Wear class 33

The ideal floor for commercial areas with heavy wear such as open-plan offices, department stores, public buildings etc.

Laminate flooring is not suitable for installation in humid rooms (bathrooms, saunas etc.)

MEISTER

Every day a masterpiece

We have been impressing with innovative products, practical system solutions and attractive designs for more than 80 years. We are constantly developing ourselves, our company and our range. As we know: you expect the best all the time. And that's what we want to give you.

MEISTER is committed to its location.

We think internationally but remain a German company – 640 employees guarantee Made in Germany premium quality day in day out.

MEISTER is a leading innovator.

Intelligent ideas make us the driving force behind the industry – over 200 patents and utility models are impressive evidence of this.

MEISTER accepts responsibility for the environment.

We act sustainably in all areas – careful product selection protects resources and the climate.

MEISTER stands for specialist retail.

We focus on reliable partnerships with specialist retail and specialist trade – our "100% PRO Producer/Dealer/Craftsmen" network guarantees first-class products, professional advice and expert assembly.
